WELCOME TO THE HOSPITAL AUXILIARY 38TH ANNUAL INVITATIONAL GOLF TOURNAMENT

Message from Mike Rosenfeld President of the Hospital Auxiliary Board

The Hospital Auxiliary's vision is to assist Hilton Head Regional Healthcare in improving healthcare quality, access, and delivery throughout the region. In 2024, the Auxiliary is celebrating its 50th year of support as it continues to expand its programs.

Each year, we provide scholarships to nursing students at the University of South Carolina Beaufort, nursing students at the Technical College of the Low Country, and to employees and children of employees of Hilton Head Regional Healthcare who are pursuing degrees in clinical healthcare.

We focus our efforts on children who would otherwise not be able to afford to attend advanced education in clinical healthcare as well as children who are first generation students attending a college or university. Many of these students would not be able to continue their educations without our scholarships.

2024 marks another milestone in healthcare for the Low Country. In February of this year, Novant Healthcare, a nonprofit, purchased the two hospitals as well as all other assets of Hilton Head Regional Healthcare from Tenet Healthcare. Novant has announced significant investments in the region, including a new hospital, ambulatory surgery center, freestanding emergency department, and medical office building in Bluffton, located roughly midway between Coastal Carolina Hospital and Hilton Head Hospital.

These new developments will expand healthcare access in our region as it is experiencing rapid economic growth over the next decade. We look forward to working with Novant and making a positive contribution to this effort.

The Fundraiser is the Major source of revenue for ALL of the Hospital Auxiliary programs.

HISTORY OF THE TOURNAMENT

The tournament was started as an 18-hole tournament at Harbour Town in 1986 by Max Stein. Max expanded the event to 36 holes in 1988 and continued to chair it until he was 90 years old. He then passed leadership on to Lew Wessel who managed it for 10 years.

In 2017, Bob Elliott, a retired senior marketing executive from Dow Chemical and member at Belfair, took over the reins as Tournament Director.

He and his committee run a tournament that continues to have a sellout field of 280 every year because it combines two days of outstanding golf at a great price and at the best courses with a spirited, fun atmosphere.

Our mission for the golf event each year has been to deliver a Memorable golf experience while raising money for a worthwhile cause. We are very grateful to the players, volunteers ,committee members, host golf courses , sponsors and prize donors who help us each year to achieve this mission. In 2022 we reached the \$1.0 Million milestone of total support we have been able to provide within our community over the history of the tournament.

Our tournament has become known as the most prestigious charity golf event on the island. In recent years we have been able to increase the Net proceeds with the support of loyal golfers and sponsors. We have added new levels of sponsorship opportunities ranging from \$1,000 to \$5,000.

We encourage our sponsors to play in the golf event and have offered complimentary player spots at the various sponsor levels in addition to the promotion and recognition we provide.

A primary source of revenue to fund the Hospital Auxiliary programs is the annual golf tournament.

One of the major areas of focus is to provide nursing scholarships to students in an effort to reduce the tremendous shortfall which exists in our local communities.

In 2023 , with support from donors and proceeds from the tournament , we were able to extend our reach and support to the community :

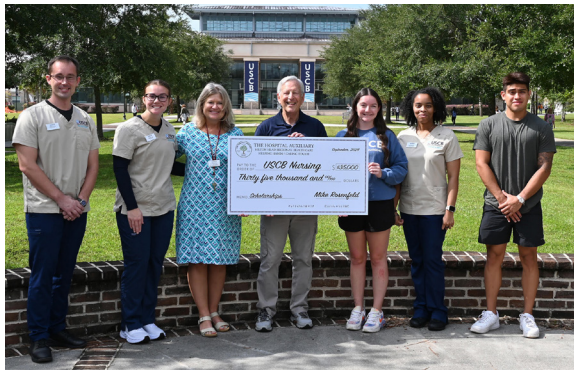

- **\$30,000** for the Nursing and Allied Health Program at the Technical College of the Lowcountry,
- **\$35,000** for the Nursing Program at USC Beaufort,
- **\$25,000** in scholarships for qualified hospital volunteers and children of hospital employees to pursue degrees in the medical field.
- **\$5,000** for The Auxiliary Caring Touch Program (A.C.T.) and the Women's Health Program.
- **\$18,000** for South Carolina Nurse Retention Hilton Head Island.

- Operates the Auxiliary Gift Shops at both hospitals for the convenience of patients, visitors and staff.
- Furnishes transportation via "The Auxiliary Trolley" to drive patients and visitors to and from parking lots, physician offices and outpatient clinics (Hilton Head Hospital Campus).
- Promotes and supports women's health issues through educational literature, informational programs and special needs.
- Administers and funds the Auxiliary Caring Touch Program (A.C.T. which assists patients without sufficient funds or insurance with their prescription medicines or special equipment needs.
- In addition, under A.C.T., infant car seats are provided to patients who do not have the financial ability or access to programs which provide protective carriers for newborns.

Tito's Handmade Vodka is America's Original Craft Vodka

In 1995, Bert "Tito" Beveridge obtained the first legal permit to distill in Texas and created Tito's Handmade Vodka. We batch distill our corn-based vodka using old-fashioned pot stills and the vodka is naturally Gluten-Free. Tito's Handmade Vodka is distilled and bottled by Fifth Generation Inc. in Austin, Texas on the very same land where the whole venture started.

The goal of Love, Tito's is simple: to turn spirits into love and goodness. Make the world a better place—in whatever way moves you; find your passion, and get involved. With the help of our nonprofit friends and family, Love, Tito's can continue to give back in more impactful ways, and keep spreading the love more.

Utilizing our patented and proprietary equipment Stretch zone practitioners follow specific protocols to properly position, stabilize and manipulate muscles using powerful principles of Neuromuscular Behavior.

While traditional stretching methods attempt to make you more "flexible," we work to adjust the stretch reflex. This way, the Stretch Zone Method gradually increases your active range of motion.

Consider how a car seatbelt works. If pulled too quickly, the belt locks. If the belt is forced, you are just stretching the material itself, and that's where injury happens. When a car seatbelt is pulled smoothly and controlled,

the belt will fully extend. It's the same with your body's stretch reflex.
